Torrent's FDA Submissions

30. Upon information and belief, Torrent submitted to the FDA documentation purporting to constitute an ANDA pursuant to 21 U.S.C. § 335(j) (ANDA No. 21-0159), seeking approval to commercially manufacture, use, and market a generic version of the pharmaceutical drug product Nesina® in the form of oral tablets containing 6.25 mg, 12.5 mg, and 25 mg of alogliptin benzoate ("Torrent's Alogliptin Generic Product"), prior to the expiration of the '689, '663, and '539 patents.

31. Torrent's ANDA No. 21-0159 relies upon the Nesina® NDA and, according to Torrent, contains the required data with respect to the bioavailability or bioequivalence of Torrent's Alogliptin Generic Product to Nesina®.

32. Takeda received letters from Torrent, dated April 3, 2017, with attached memoranda (collectively, "Torrent's Alogliptin Notification"), stating that Torrent included certifications in its FDA submission, pursuant to 21 U.S.C. § 355(j)(2)(A)(vii)(IV), that the '689, '663, and '539 patents are invalid, unenforceable, and/or will not be infringed by the commercial manufacture, use, or sale of Torrent's Alogliptin Generic Product (the "Alogliptin Paragraph IV certification"). Thus, Torrent is seeking approval of its proposed Alogliptin Generic Product prior to the expiration of the '689, '663, and '539 patents. 34. Torrent's ANDA No. 21-0160 relies upon the Kazano® NDA and, according to Torrent, contains the required data with respect to the bioavailability or bioequivalence of Torrent's Alogliptin-Metformin Generic Product to Kazano®.

35. Takeda received letters from Torrent, dated March 29, 2017, with attached memoranda (collectively, "Torrent's Alogliptin-Metformin Notification"), stating that Torrent included certifications in its FDA submission, pursuant to 21 U.S.C. § 355(j)(2)(A)(vii)(IV), that the '689, '663, '539, and '638 patents are invalid, unenforceable, and/or will not be infringed by the commercial manufacture, use, or sale of Torrent's Alogliptin-Metformin Generic Product (the "Alogliptin-Metformin Paragraph IV certification"). Thus, Torrent is seeking approval of its proposed Alogliptin-Metformin Generic Product prior to the expiration of the '689, '663, '539, and '638 patents. Plaintiffs are filing this complaint within the 45-day interval from receipt of Torrent's Alogliptin-Metformin Notification, pursuant to 21 U.S.C. § 355(c)(3)(C). Plaintiffs reserve all rights to challenge the sufficiency of Torrent's ANDA No. 21-0160 and Alogliptin-Metformin Paragraph IV certification.

36. Upon information and belief, Torrent submitted to the FDA documentation purporting to constitute an ANDA pursuant to 21 U.S.C. § 335(j) (ANDA No. 21-0161), seeking approval to commercially manufacture, use, and market a generic version of the pharmaceutical drug product Oseni® in the form of oral tablets containing 12.5 mg/25 mg of alogliptin benzoate and 15 mg/30 mg/45 mg of pioglitazone ("Torrent's Alogliptin-Pioglitazone Generic Product"), prior to the expiration of the '689, '663, and '539 patents.

37. Torrent's ANDA No. 21-0161 relies upon the Oseni® NDA and, according to Torrent, contains the required data with respect to the bioavailability or bioequivalence of Torrent's Alogliptin-Pioglitazone Generic Product to Oseni®.

38. Takeda received letters from Torrent, dated March 24, 2017, with attached memoranda (collectively, "Torrent's Alogliptin-Pioglitazone Notification"), stating that Torrent included certifications in its FDA submission, pursuant to 21 U.S.C. § 355(j)(2)(A)(vii)(IV), that the '689, '663, and '539 patents are invalid, unenforceable, and/or will not be infringed by the commercial manufacture, use, or sale of Torrent's Alogliptin-Pioglitazone Generic Product (the "Alogliptin-Pioglitazone Paragraph IV certification"). Thus, Torrent is seeking approval of its proposed Alogliptin-Pioglitazone Generic Product prior to the expiration of the '689, '663, and '539 patents. Plaintiffs are filing this complaint within the 45-day interval from receipt of Torrent's Alogliptin-Pioglitazone Notification, pursuant to 21 U.S.C. § 355(c)(3)(C). Plaintiffs reserve all rights to challenge the sufficiency of Torrent's ANDA No. 21-0161 and Alogliptin-Pioglitazone Paragraph IV certification.

COUNT ONE: INFRINGEMENT OF THE '689 PATENT

39. Plaintiffs repeat and reallege the allegations of paragraphs 1–38 as though fully set forth herein.

40. Submission of ANDA Nos. 21-0159, 21-0160, and 21-0161 to obtain approval to engage in the commercial manufacture, use, sale, offer for sale, or importation of oral tablets containing alogliptin benzoate (6.25 mg, 12.5 mg, 25 mg), a combination of alogliptin benzoate (12.5 mg) and metformin hydrochloride (500 mg/1000 mg), and a combination of alogliptin benzoate (12.5 mg/25 mg) and pioglitazone (15 mg/30 mg/45 mg), respectively, prior to the expiration of the '689 patent constitutes infringement of one or more of the claims of that patent under 35 U.S.C. § 271(e)(2)(A).

41. Unless enjoined by this Court, upon FDA approval, Torrent will induce infringement of the '689 patent under 35 U.S.C. § 271(b). Upon information and belief, upon FDA approval, Torrent will intentionally encourage acts of direct infringement with knowledge of the '689 patent and knowledge that its acts are encouraging infringement.

42. Unless enjoined by this Court, upon FDA approval, Torrent will contributorily infringe the '689 patent under 35 U.S.C. § 271(c). 44. Torrent's actions, including its reliance on the purported defenses and statements set forth in Torrent's Notifications regarding the '689 patent, warrant a finding that this case is

an exceptional case pursuant to 35 U.S.C. § 285, and entitle Plaintiffs to recovery of their attorneys' fees and such other relief as this Court deems proper.

45. Plaintiffs will be substantially and irreparably harmed if Torrent's infringement of the '689 patent is not enjoined.

46. Plaintiffs do not have an adequate remedy at law.

COUNT TWO: INFRINGEMENT OF THE '663 PATENT

47. Plaintiffs repeat and reallege the allegations of paragraphs 1–46 as though fully set forth herein.

Upon information and belief, upon FDA approval, Torrent will intentionally encourage acts of direct infringement with knowledge of the '663 patent and knowledge that its acts are encouraging infringement.

50. Unless enjoined by this Court, upon FDA approval, Torrent will contributorily infringe the '663 patent under 35 U.S.C. § 271(c). Upon information and belief, Torrent has had and continues to have knowledge that Torrent's Generic Products are especially made or especially adapted for a use that infringes the '663 patent and that there are no substantial non-infringing uses for Torrent's Generic Products.

51. Torrent does not contest infringement of claims 1, 4, 6-10, 12, 14-21, 27, and 29 of the '663 patent in Torrent's Notifications. If Torrent had a factual or legal basis to contest infringement of claims 1, 4, 6-10, 12, 14-21, 27, and 29 of the '663 patent, it was required by applicable regulations to state such a basis in Torrent's Notifications. *See* 21 CFR 314.52 (requiring paragraph IV notice letter to include a detailed, claim-by-claim analysis of its bases for claiming non-infringement or invalidity of any patent that is listed in the Orange Book in conjunction with the reference listed drug and as to which the applicant has submitted a paragraph IV certification).

52. Torrent's actions, including its reliance on the purported defenses and statements set forth in Torrent's Notifications regarding the '663 patent, warrant a finding that this case is an exceptional case pursuant to 35 U.S.C. § 285, and entitle Plaintiffs to recovery of their attorneys' fees and such other relief as this Court deems proper.

53. Plaintiffs will be substantially and irreparably harmed if Torrent's infringement of the '663 patent is not enjoined.

60. Torrent's actions, including its reliance on the purported defenses and statements set forth in Torrent's Notifications regarding the '539 patent, warrant a finding that this case is an exceptional case pursuant to 35 U.S.C. § 285, and entitle Plaintiffs to recovery of their attorneys' fees and such other relief as this Court deems proper.

65. Unless enjoined by this Court, upon FDA approval, Torrent will induce infringement of the '638 patent under 35 U.S.C. § 271(b). Upon information and belief, upon FDA approval, Torrent will intentionally encourage acts of direct infringement with knowledge of the '638 patent and knowledge that its acts are encouraging infringement.
